

9th March '2016'

Sharon has worked with my daughter for eight years, and in the last year has been running her own business. Sharon has been amazing, she is patient understanding and compassionate, yet still manages to maintain her professionalism.

Her skills as a BSL level 3, enabling and working with Special Needs, are second to none. My daughter has very challenging behaviour problems and is profoundly deaf. Sharon is totally competent in dealing with all these aspects.

My daughter has achieved so much with Sharon's input and support, and continues to do so.

Words cannot express my appreciation and admiration I have for this very special person. In life only a very few people can make a difference in people's lives. Sharon is one of these people.

She's my angel in disguise

Carol Hales
(mum).
