Dear Sir/Madam,

I am the parent of a client of Sharon Brown and would highly recommend her in the role as an enabler, she has always done the very best for my son and goes beyond the call of duty to make sure he feels safe, that he understands things, Sharon's work with my son has enabled him to live independantly and reach a place where he can function to the best of his ability. He has had other enablers but only Sharon has had a positive effect on his life, which I hasten to add has a positive effect on myself as I know I can fully trust her.

Yours sincerely

Mrs. Teresa Gibson
