

Testimonial - Sharon Brown of BSL Enabling Service

I have had the pleasure working with Sharon now for a couple of years. She supports a couple of our tenants through BSL Enabling. Sharon has a special way of building up relationships between the people she supports, with agencies and organisations. This is because Sharon inspires people to improve communication. This is so important to promote independent living, and why she's so good at what she does.

Sharon has a wonderful kind and caring nature and thrives to improve the quality of life to the people she supports, but also to the deaf community. Sharon has a real passion about British Sign Language, she encourages people to learn the language. I attended her BSL taster course which was brilliant. I learnt so much in the 5 week course, it's really improved my communication with some tenants I visit, but it has also given me the confidence to engage in conversation with someone with hearing loss.
