

Sharon has been working and enabling my daughter for the last 11years (4years running her own enabling service)

My daughter has complex needs and is profoundly deaf, and is challenging at the best of times.

Sharon's skills are a rare commodity.

She is adaptable, flexible and patient in her approach to addressing my daughter's needs mentally and emotionally, all supported in B.S.L (British sign language)

Sharon is relentless in her ambition to educate and support the community by setting up BSL taster courses, so businesses, doctors, dentist, etc are more aware of the difficulties my daughter faces in everyday life.

My daughter would not be where she is today without her.

Sharon is one in a million, and it's people like her that really can make a difference to a person life.

Thank you so much
