"Myself and my partner recently undertook the BSL TASTER with BSL Enabling and found it to be highly educational.

We currently work together with the public and found what we learnt in the few weeks alone to be very useful.....

We have been able to put into practice our learned skills almost on a day to day basis.....

On the back of this we have both considered completing the level1, the sole reason for not doing as yet is purely work commitments. However, we both intend to very soon.

Sharon is wonderfully professional and put everyone at ease in an instant.

I would thoroughly recommend Sharon and BSL Enabling to anyone....
