

## Testimonial for BSL Enabling

I first met Sharon when she visited the cinema I work at with a client, after talking about subtitled films being shown at our cinema I became interested in learning Sign Language, we also increased our subtitled performances to accommodate more deaf, and hard of hearing families.

I signed up to the British Sign Language taster course she was running as soon as I heard about it, the lessons were well organised, every sign was explained thoroughly, and the classes were run in a fun relaxed atmosphere, which helped with the learning experience.

I highly recommend her taster sessions to anyone wishing for an introduction to British Sign Language
